

5th Annual Gold Coast Endoscopy Symposium.

10th May 2019

It is my pleasure to invite you to the 5th Annual Gold Coast Endoscopy Symposium on the 10th of May 2019.

Since the first meeting it has been our attempt to provide a day of presentations around advances in endoscopic imaging, technology and clinical practice. The format will again be a mix of clinical case discussions, live endoscopy cases and state-of-the-art lectures. We are again honoured to have a stellar cast of international and national faculty. This year our major theme is Quality in Endoscopy and we hope to have several discussions and debates around quality and best practice recommendations for our routine endoscopic practice.

Venue: Gold Coast University Hospital, Southport, Gold Coast.

Event Director: Dr Sneha John

Contact address: Endoscopy Unit, Gold Coast University Hospital, Parkwood, Southport

Email: endoscopy.masterclass@health.qld.gov.au

International Faculty:

Prof Raf Bisschops

Dr Naohisa Yoshida

Prof Jeong-Sik Byeon

A/Prof Dong-Hoon Yang

Dr Lydi Van Driel

Australian faculty:

A/Prof Benedict Devereaux

Dr Matthew Remedios

Dr Nicholas Tutticci

Dr Mark Appleyard

Dr Florian Grimpen

Key event topics:

- Advanced endoscopic imaging
- Strategies for improved adenoma detection
- Quality in colonoscopy and upper GI endoscopy
- Characterisation and management of colo-rectal polyps
- Advances in diagnosis of neoplasia in Barrett's
- Endoscopy in IBD
- New tools and techniques for improved diagnosis and treatment

Please find programme attached along with the registration details and link for payment.

Please note that separate payment for the nursing symposium is not required if you are registering for the masterclass. Registration is free for GCHHS staff.

REGISTER FOR ENDOSCOPY SYMPOSIUM

Programme

- 08.45** **Welcome and Introduction** - Dr Sneha John
- 09.00** **Mini symposium 1**
Quality in Upper GI Endoscopy- where are we? Prof Raf Bisschops
Live Endoscopy
Updates in management of Eosinophilic esophagitis - Dr Florian Grimpén
Sub-epithelial lesions in the upper GI tract - Dr Lydi Van Driel.
- 10.30** **Tea Break**
- 11:00** **Mini symposium 2**
Case based discussions.
Resection of cold polyps: The Cold Revolution continues? Dr Nicholas Tutticci
Live endoscopy
Achieving safe and high quality colonoscopy: speaker TBA
- 12.30** **Lunch**
- 13.45** **Mini symposium 3**
Endoscopy in IBD, best practice recommendations: Prof Raf Bisschops.
You can only resect what you detect- enhancing dysplasia detection in IBD - A/Prof Dong Hoon Yang.
Live endoscopy
What, when and how to resect what you detect - Dr Naohisa Yoshida.
- 15.15** **Tea break**
- 15.45** **Mini symposium 4**
Machine over man or Man over machine? AI in Endoscopy - Prof Jeong-Sik Byeon
Molecular Endoscopy; pipe dream or pipeline- Dr Sneha John
POEMs, POETs and Endoscopy - Dr Matthew Remedios.
- 16:45** **Conclusion**
