

Counselling

Gold Coast Sexual Health Counselling Service

The counselling service offers assistance for a range of issues which include:

- Difficulties associated with living with HIV
- Coping with a diagnosis of a sexually transmissible infection (STI)
- Sexual difficulties including desire, orgasm, pain, erection and ejaculation
- Sexuality concerns
- Support for workers in the commercial sex industry
- At-risk sexual behaviour
- Support for partners or family members with any of the above concerns.

Booked appointments are required for this service.

Screening for STIs

All sexually active people should consider regular testing for sexually transmissible infections.

Gold Coast Sexual Health Service offers express STI screening that is available without an appointment providing you:

- do not have symptoms
- have not been in contact with a sexually transmissible infection.

If you have symptoms, or have been in contact with an STI, contact Gold Coast Sexual Health Service for an appointment.
