

Palliative Care

H1 South | Robina Hospital

palliative care

The Supportive and Specialist Palliative Care Inpatient Unit has a varying bed platform of 16-20 beds, where acute symptom management, palliative and end of life care is provided. The Inpatient Unit is one part of a multidisciplinary service that delivers consultative-liaison, community and complex discharge planning, where appropriate, in a coordinated manner across all disciplines within the Gold Coast Hospital and Health Service.
