

Endoscopy

D2 | Gold Coast University Hospital

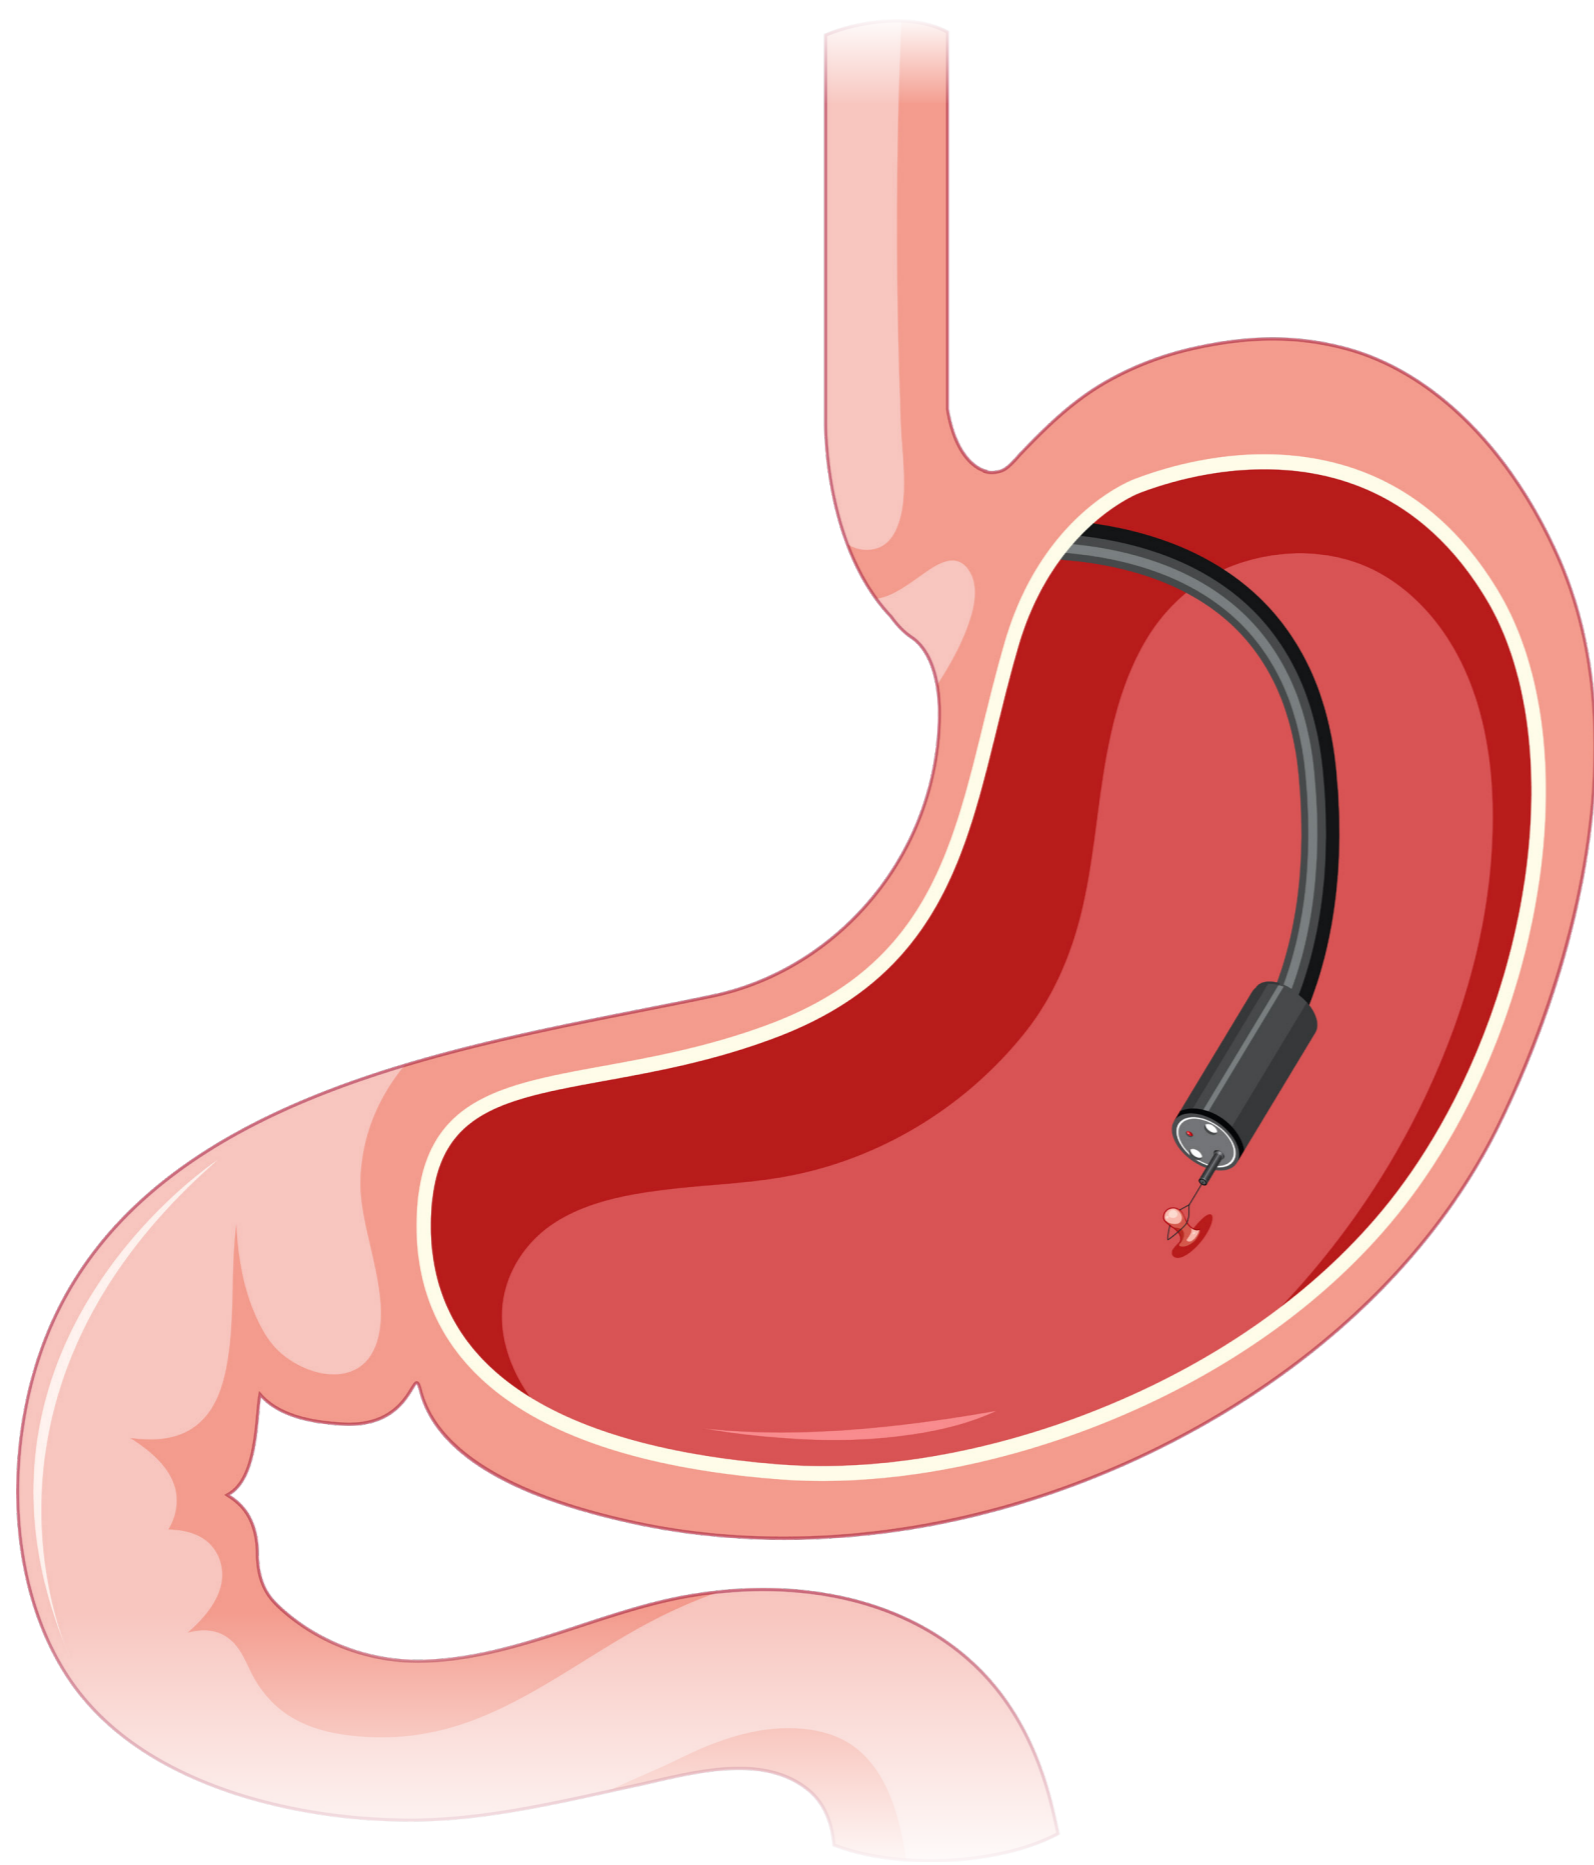

The Endoscopy unit is situated in the peri-operative services, comprising of four procedure rooms and an independent cleaning room to reprocess endoscopy equipment. Our specialised unit performs procedures such as: Gastroscopy, Colonoscopy, Interventional Endoscopy EMR, ESD, ERCP and EUS, Single Balloon Enteroscopy, bronchoscopy/EBUS, capsule endoscopy/HALO, PEG insertions/replacements, duodopar PEJs, emergency endoscopy, and bowel screening. Procedures are performed with anaesthetic support and recovered in endoscopy PACU then transferred to second stage recovery. We provide a 24 hour 'on call' emergency service staffed by a gastroenterologist and an endoscopy nurse.
