- Clinical Nurse Consultant (GCUH)
- Preceptorship program
- Graduate Transition Support
- Allied health Support
- Clinical Skills Assessments (CSATS)
- Simulated Educational opportunities.

Professional Opportunities

- Progression from Graduate RN, Registered Nurse, Clinical Nurse & Clinical Facilitator
- Clinical Nurse Consultant
- Preceptorship
- Team Leader succession planning
- Portfolio management
- Research and quality projects

Rotation through domains

- Computed Tomography (CT) and CT procedures
- Magnetic Resonance Imaging (MRI)
- General Radiography (X-ray)
- Nuclear Medicine – PET and Stress Testing
- Fluoroscopy
- Patient Holding – Admission, Recovery and Discharge.
- ED Pod - GCUH
- Ultrasound procedures
- Interventional Radiology (General and Neuro)– GCUH

Learning Opportunities

- Admission and discharge assessments of patients
- Pre-operative/procedure documentation
- Procedural recovery nursing, including cardiac angiogram CT
- Procedural sedation administration
- Procedural scrub/scout role (Interventional Radiology)
- Advanced Life Support (ALS)
- Peripheral inserted Cannulation
- Ultrasound guided cannulation
- Port access
- Medication loading and contrast administration.
- Pathology Test analysis
